CCTV System & Data Management Policy

Introduction:

The Closed Circuit Television System (CCTV) is installed in Scoil Seanáin Naofa under the remit of the Board of Management.

Purpose of the Policy:

The purpose of this policy is to regulate the use of CCTV and its associated technology in the monitoring of the environs of premises under the remit of the Board of Management of Scoil Seanáin Naofa.

Purpose of the CCTV System:

The CCTV system is installed externally for the purpose of enhancing security of the building and creating a mindfulness among the occupants, at any one time, that a surveillance security system is in operation to deter crime, vandalism and theft, as an aid to Health and Safety and to the discharge of the school's duty of care within and/or in the external environs of the premises at all times.

Scope of this Policy:

This applies to all personnel in and visitors to Scoil Seanáin Naofa. It relates directly to the location and use of CCTV, the monitoring, recording and subsequent use of such recorded material.

General Principles:

The Board of Management of Scoil Seanáin Naofa as the corporate body, has a statutory responsibility for the protection of the school property and equipment as well as providing a sense of security to its employees, students and invitees to its premises. Scoil Seanáin Naofa owes a duty of care under the provision of Health, Safety and Welfare legislation and utilises CCTV systems and its associated monitoring and recording equipment as an added mode of security and surveillance for the purpose of enhancing the quality of life in Scoil Seanáin Naofa by integrating the best practices governing the surveillance of its premises, including using any evidence obtained in any disciplinary issue.

The primary aim of the CCTV monitoring of Scoil Seanáin Naofa premises is to deter crime and vandalism and to assist in the protection and safety of the said property and its associated equipment and materials.

Monitoring for security purposes will be conducted in a professional, ethical and legal manner and any diversion of the use of CCTV security technologies and personnel for other purposes is prohibited by this policy. For example, CCTV monitoring of political or religious activities, or employee and/or student evaluations would undermine the acceptability of the resources for use regarding critical safety and security objectives and is therefore prohibited by this policy.

Information obtained through video monitoring may only be released when authorised by the Principal, following consultation with the Chairperson of The Board of Management.

CCTV monitoring of public areas, for security purposes, will be conducted in a manner consistent with all existing policies adopted by the Board of Management including the provisions set down in Equality and other Education related legislation.

The industry code of practice for video monitoring prohibits monitoring based on the classifications contained in Equality and other related legislation e.g. gender, marital status, family status, sexual orientation, religion, age, disability, race or membership of the Traveller community.

Video monitoring of public areas, for security purposes, is limited to areas that do not violate the reasonable expectation to privacy as defined by law.

Data from the CCTV system will be accessed and used in accordance with Data Protection Regulations.

Data Protection:

All personal data recorded and stored by the CCTV system is governed by the Data Protection Acts of 1998 and 2003. The recorded footage and the monitoring equipment shall be securely stored in the office area. Unauthorised access to that office is not permitted at any time.

The following procedures shall be followed in the event that An Garda Síochána seeks to view or take a copy of CCTV footage from the school's CCTV systems:

1. The data controller shall satisfy himself/herself that there is an investigation underway.
2. A request from An Garda Síochána must be made in writing on Garda headed notepaper.
